

COVID-19 Team Member Vaccinations

To keep our patients, communities and each other safe, all team members must be fully vaccinated against COVID-19 or have received a deferral or exemption.

Team members have the opportunity to receive the vaccine through Advocate Aurora Health and can find more information, including how to schedule an appointment, by visiting aah.org/TM-vaccine.

Please note: team members with an exemption or deferral must follow current system PPE guidance, comply with current Advocate Aurora guidance on travel, complete the current SafeCheck screening process prior to entering an Advocate Aurora site and conduct weekly COVID-19 testing.
