**Average age of patients with a general medical condition treated in 2025: 74
years**

**Average length of stay for patients with a general medical condition treated on our Rehab Unit in
2025: 12 days**

Program facts

- The Advocate Lutheran General Hospital rehabilitation program exceeds regional and national averages in achieving independence with mobility, dressing, grooming, speech, language and mental skills.
- Our rehab team has the skills and capabilities of treating patients with a general medical condition as we serve more disabled and medically complex patients than those served in other facilities in the region and nation.
- It is not uncommon for some patients to need additional medical attention and our physician can transfer patients to a medical floor in the hospital, if needed. 26.5% of our patients with general medical diagnosis transferred to a medical floor in 2025.
