- Safety concerns were addressed in the Daisy Basket for storage of glass shelving. A designated location was found in the work room where shelves were replaced with dividers so the glass shelves could stand individually and be stored by size.
- The cost of Gift boxes used in the Daisy Basket was evaluated and it was determined to no longer purchase the boxes. Gift boxes are now being made by volunteers using scrapbook paper that has been donated to the Gingham Tree.
- The Daisy Basket Balloons were stored in the hall outside of the Daisy Basket. The rack had to be moved in and out of the Shop each morning and evening.
- A sample of each balloon is now in a binder. The balloons are now stored in an area of the work room in which the balloons are inflated.
- Each of these projects has made safety a priority. Time and money have been saved.
